

STARS Air Ambulance is a non-profit organization providing rapid and highly-specialized emergency care and transportation to the critically ill and injured. With 11 EMS equipped helicopters operating in the provinces of Alberta, Saskatchewan, and Manitoba, STARS provides 7-24 medical support with a team of highly trained medical professionals. Since their inception in 1985 STARS has completed over 30,000 missions responding to the needs of the critically ill and injured.

STARS provide a critical resource to the transportation industry, not only responding to remote parts of the province, but also to on road vehicle and job site accidents. CTS recognizes the importance that STARS plays in our industry, and in celebration of our 50<sup>th</sup> anniversary CTS provided a major donation to the STARS foundation in the provinces of Saskatchewan and Manitoba and renewed their commitment to on-going support of a STARS Community Support Vehicle used for the training and education of rural community medical and emergency support providers throughout both provinces.
